WHY SHOULD YOUR LEFTOVERS GO TO WASTE?

Frequently Asked Questions

Q: How to insert food waste into my MunchBOT?

A: Open the top door by pressing the "Open/Close" button on the panel, then insert your food waste into MunchBOT and close it by pressing the "Open/Close" button once again.

Q: Are there unpleasant smells from MunchBOT?

A: Rest assured that your house will be free of stinky smell! Our MunchBOT is equipped with proactive carbon UV filtration that eliminates unpleasant smells from food waste.

Q: Where should I place my MunchBOT?

A: MunchBOT can fit into the kitchen, office pantry, car porch or backyard with shelter.

Q: How often do I need to top up enzymes into MunchBOT?

A: Every two to three months depending on the frequency of usage.
